

QUESTIONS for PARENTS and CARERS: to influence the 'Magical Journey' arts project

Hi my name's Stella and I'm going to be making some super new artworks for Waterfall House. This could be for the windows, walls or ceilings and cover wayfinding, waiting areas, consulting rooms to individual bedrooms.

I'm rolling out an in-depth creative engagement programme for all children using the services and wards – please see the A6 flyer to find out more or get involved.

By answering these questions, you will be helping steer the developing artwork so that it is relevant and supportive to you and your child – thank you for your time.

Please give the name of the ward your child is visiting or been admitted to

- 1) What would make you [and therefore for child] less anxious on arriving at Waterfall House for a new appointment?

- 2) What would help put you at ease entering the Waterfall House environment when visiting regularly?

- 3) When waiting for an appointment or treatment, do you find your child needs a calm space or lots of distraction?

- 4) Are there any particular colours or things that might make your child agitated? Likewise, are there any particular things that help them relax?

- 5) Would artwork with stories or interesting facts help you entertain your child?

- 6) Please add any other relevant comments, thoughts or ideas that you feel would be helpful.
