

Magic Story Recipe: Part One

Hi, I'm Stella and I'm going to be making some artworks for your department - for the walls, windows and/or ceilings. But to do this I need your help, because it's a tricky thing creating artworks for everyone aged 0 to 17 years to enjoy!!

By coming on board with our 'Magic Story Recipe' journey you will be influencing the themes and identity for the artworks. You can help make them fun and interesting for you! This is the first of several parts too: it lays the foundations for our creative journey.

So grab your activity pack 'recipe ingredients' and get prepared by letting your imagination run free. You might want to ask someone to chat things over with? Get as comfortable as you can and lay out your ingredients from the activity pack.

Watch the video to guide you along the way...

Turn over to get started!

 What would you be if you could be anything at all? and why?

*...a space traveller, to explore outer space
and solve the mystery of the universe!?*

*...the wind, so I can be completely free
and travel wherever I liked!?*

 How does it feel to be this 'anything'?

...proud and amazed by the wondrous expanse of space!?

...relaxed, contemplative, powerful!?

 What can you see and hear around you?

...colourful nebulas and the lovely silence of space!?

*...I can hear myself blowing through the trees,
and see the gentle air movements I'm making!?*

 What would be the best thing about all of this?

*...coming back home to share my research
and help make Earth a better place!?*

...having the power over the weather systems!?

Now use these answers to create your own magical story collage!
