FOR FAN/Rainbow POP UP CARD

Print off on regular A4 paper.
Cut in half and glue A to A to make one long length,
Colour in on the plain white side, remembering this will be pleated,
Then fold along lines as a concertina to form a fan,
The two end tabs will then glue to the card.

FOR POP UP CARD: FAN

Use thick paper for the card, you can print off or simply trim your paper as shown at 148mm wide, then fold in half.

Once you have finished your fan, glue the first fold to the top left side, then apply glue to the last fold, close the card and hold down for a minute.

Open up and you have your fan!

Decorate the front of the card [you might want to do this before you glue in your fan] then write a message to your friend about your adventure!

glue last fold here
