

FOR POP UP CARD: TABS

Use thick paper for the card, you can print off or simply trim your paper as shown at 148mm wide, then fold in half.

Cut and fold the tabs and glue corresponding parts as illustrated. Close and open your card to make sure they work OK.

Once you have finished your drawings, cut them out and glue to the front edge of the tabs.

Decorate the front of the card [you might want to do this before you glue in your tabs] then write a message to your friend about your adventure!

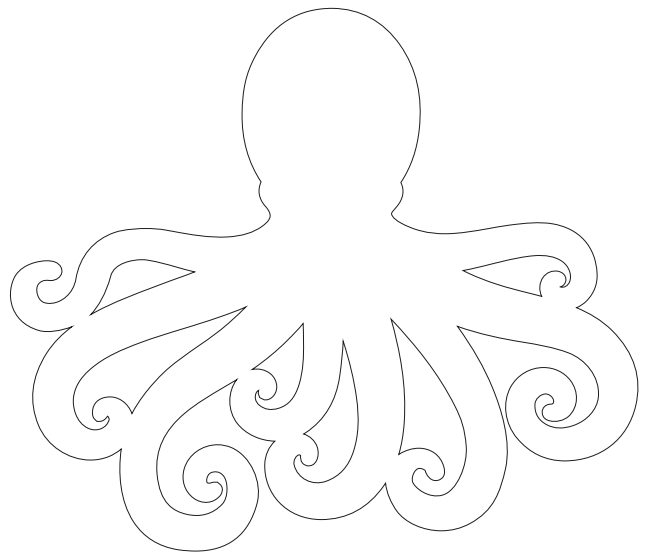

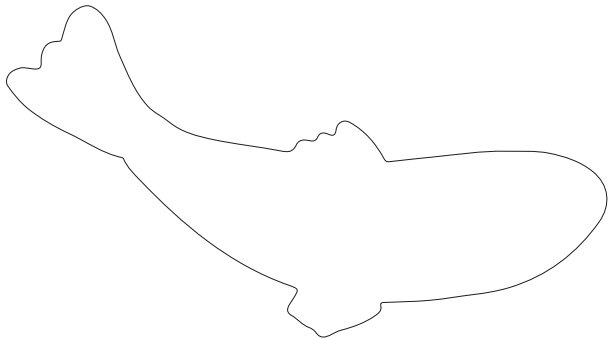

cut out the two tabs and fold on the dotted line

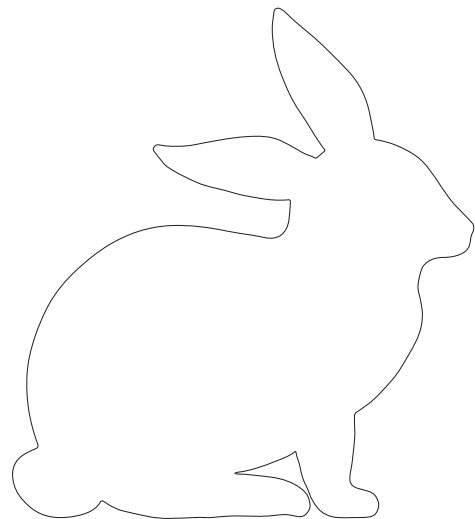

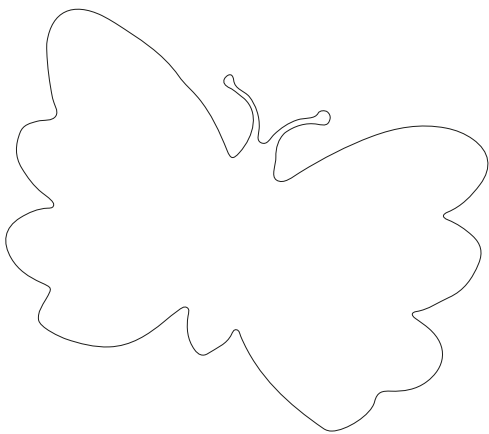

FOR TAB/Story POP UP CARD

You can use these templates below, or create your own!

an underworld adventure!?

an countryside adventure!?

an space adventure!?
